

Please do NOT change the restrictions governing New Jersey's DO NOT CALL List. I subscribe to this service and find it very helpful. I have a right to privacy in my own home. And regulating the nuisance, unwanted, and unsolicited telemarketers is a right and freedom which I have come to value. If I am in need of any services, I will contact the companies or suppliers which I choose at the time I choose. I have never bought products or services from anyone solicitating them over the telephone and I never will. i realize these companies have a right to advertise and sollicite, but they can do so by other means (print,electronically through computers, etc.)Thank you.
